

**NONET® IS YOUR SAFETY NET**

# NONET®

BRAND

## SPREADING-TYPE TALL FESCUE

### AGGRESSIVE!

NoNet® brand shows amazing bear spot recovery. After only 6 weeks at this fill-in trial location, NoNet® has almost completely covered the previously bare spot.

### SOD PRODUCED WITHOUT NETTING IS:

- **Safer** for athletes since there is no netting to catch cleats
- **Safer** for the environment by eliminating the need for plastic sod netting
- And **saves** the turf producer money in netting costs to get the turf you expect

### Turf Farm Recovery!

Just as the name implies, NoNet® has shown great recovery after harvest. The strength of NoNet®'s rhizomes is evident by this regrowth after harvest at a sod farm in Utah.

### REAL RHIZOME ENHANCEMENT!

NoNet® spreading turf-type tall fescue gives you true performance and results you can see.

### EXCELLENT TURF QUALITY!

With NoNet® there is no need to sacrifice turf color and quality. NoNet® matches the best varieties out there.
