explore how we
upcycle food waste
into functional treats.

SUSTAINABILITY IN EVERY PECK

- Our black soldier fly larvae upcycle pre-consumer food waste from farms and food manufacturers into powerful, natural nutrition
- Less waste, fewer emissions, and better nutrients for your flock
- The result: happy birds and a healthier planet

PREMIUM NUTRITION FOR HEALTHIER FLOCKS

- A source of calcium, phosphorus, and essential nutrients that support stronger eggshells, healthier beaks, and glossy feathers
- Naturally higher in calcium than mealworms
- Optimal calcium to phosphorus ratio to support egg production

ALL NATURAL & ENRICHING

- No artificial hormones
- Encourages natural foraging behavior keeping birds active, curious, and content
- Doubles as a simple training tool for enjoyable moments

QUALITY YOU CAN TRUST

- Made in Canada, ensuring safety, traceability, and consistent quality - no unknown overseas inputs
- Gently dried using controlled processes that preserve natural color, nutrients, and overall integrity
- Packaged in premium, pest-proof, reusable containers that protect freshness and quality
